Curriculum vitae

Summary Over 5 years of Experience, 4 Years and 3 months as AWS Sr. Cloud Engineer with excellent knowledge in Cloud Computing Strategies, building, deploying and maintaining cloud environment on Amazon Web Services. Worked on various operating systems like Linux, RHEL, Ubuntu, Windows. Possess high working qualities with good interpersonal skills, high motivation, fast learner, very proactive in problem solving to provide best solutions.

Certification:

- AWS Solution Architect Associate.
-

TECHNICAL EXPERTISE

AWS:-

- AWS comprising of build release management, software configuration, design, development, and cloud implementation on AWS Cloud.
- Deploying and managing AWS organization and control tower.
- Cognitive about designing, deploying, and operating highly available, scalable and fault tolerant systems using Amazon Web Services (AWS). Adaptive to Cloud Strategies based on AWS (Amazon Web Services).
- Proficient in AWS services like VPC and related components, EC2, S3, ELB, Auto Scaling Group (ASG), EBS, EFS, IAM, CloudWatch, CloudFront (CDN), CloudTrail, S3 Glacier, Lambda, DMS, Node/Pods Autoscaling, ECS, Secret Manager, Cognito, etc.
- Used IAM for creating roles, users, groups and implemented MFA to provide additional security to AWS account and its resources.
- Maintained the monitoring and alerting of production and corporate servers using Cloud Watch service and other dedicated monitoring tools.
- Design and implement IaaS and PaaS services to support consumer applications.
- Worked on Terraform to deploy large and diverse resources, Debugging the Terraform script.
- Resource deployment and management through Terraform on AWS.

OS - LINUX : -

- Experience on Ubuntu and RHEL.
- Managed and installed patches and software packages using YUM and RPM.
- Hardening of Images & apply internal controls as per security guidelines.
- Managing (adding/removing) disks and partitions for RHEL physical & VM servers.

CAREER PROFILE

`

Current Experience: -
Current Role: -Senior Cloud Operations Engineer
Company: - ToTheNew
7-July-22 to Present.
Projects:- HDFC MutualFund, concealedcoalition, countrywideconcealed, americanservicepets.

ROLE AND RESPONSIBILITIES:

- Applications migration from on-perm to AWS infrastructure.
- Implementation of AI driven Datalake.
- Implementation of AI driven autoscaling for compute workloads.
- Migrations of complete BU from on-prem or from one account to another.
- Jenkins CICD pipeline for continuous deployment of applications.
- Worked on AWS services like Cloud Front, DMS, Amazon Certificate Manager, Elastic Container System, System Manager, Cloud Watch, Cloud Trail, Lambda, EC2, RDS, IAM, AWS config, Elastic cache, SNS, Lambda, ECR, AWS Backup, S3 etc.
- Automation for various tasks through AWS System Manager like Patching, Package installations, etc, Server Start Stop and other various tasks.
- Worked on CloudWatch and other monitoring tools for Monitoring and for task automation, Auto scaling, Scheduling triggers for Lambda functions and other services.
- Creation of VPC and Component of VPC's like subnets, route table, KMS, VPC peering, Nat-Gateway, Endpoints(For private environments), transit gateways and its Configuration etc.
- Worked on Storage Services like S3, S3 Glacier, EBS.
- Managing EC2 and EC2 Tasks like Instance type changes, Volume modifications, server recovery and managing end to end etc.
- Automation of deploying and managing resources through Terraform.

HIGHLIGHTS:-

- **Achieved 30–40% compute cost savings** by implementing **AI-driven autoscaling** across production compute workloads.
- Executed **zero-downtime migration** of an entire **Business Unit** across **Production** and Staging environments.
- **Designed and implementation** of an **AI-driven Data Lake** for large-scale analytics.
- **Automated CI/CD pipelines** for containerized applications, significantly reducing manual deployment effort.
- **Designed and Implemented Prometheus & Grafana Monitoring Stack** to monitor workloads, Application and **Custom Metrics**
- **Designed and managed multi-account AWS architecture Ex:- (shared, BU-2, BU-1, Master).**

TECHNICAL SKILLS:

Cloud Technologies	AWS, Terraform
Monitoring	CloudWatch, Site24x7, New Relic, Hawk
Operating Systems	Windows, Ubuntu, Linux
Container Management	Docker, EKS
Version Control Systems	Git
Ticketing Tools	ServiceDesk and BMC Remedy, Jira

`

Previous Experience: -
Current Role: -Senior Cloud Operations Engineer
Company: - Cloudxchange.io(NSEIT)
10-Feb-20 to 7-July-22.

Project Name:- Kotak Mahindra Bank LTD.

ROLE AND RESPONSIBILITIES:

- Worked on AWS services like CloudFront, Data Migration Service, Amazon Certificate Manager, Elastic Container System, System Manager, CloudWatch, CloudTrail, Lambda, EFS, Athena, Etc.
- Data migration from on-prem database to AWS S3.
- Worked with Crawlers and ETL jobs in Glue.
- Knowledge of SSL configuration on LB, CDN and APIGateway.
- Automation for various tasks through AWS System Manager like Patching, Package installations, etc.
- Worked on CloudWatch for Monitoring and for task automations, Autoscaling, Scheduling triggers for Lambda functions.
- Creation of VPC and Component of VPC's like subnet, route table, security group, VPC peering, Nat-Gateway, Endpoints(For private environments), etc.
- Worked on KMS Service for Data Encryption as per compliance.
- Worked on Storage Services like S3, S3 Glacier, EBS, EFS, etc.
- Managing EC2 and EC2 Tasks like Instance type changes, Volume modifications, etc.
- Deploying and managing resources through Terraform.
- Created and Managing LVMs, PVS, VGs.
- Installation of Packages on various Linux flavors.
- Creation and Implementation Shell scripts for automation tasks.
- Deployed EKS clusters and worker nodes along with EKS components like Ingress load balancer, Ingress controller, Auto scaler, HPA, readiness and aliveness.

PERSONAL PROFILE:

Name	: Ashish Soni
Date of Birth	: 25-10-1997
Father's Name	: Avtar Singh Soni
Sex	: Male
Marital Status	: Unmarried
Language Known	: English and Hindi
Nationality	: India

EDUCATION / ACADEMIC: -

1) Completed Bachelor of Computer Administration from Sunrise University in 2019.
2) Completed 12th from CBSE Board in 2016.
3) Completed 10th from CBSE Board in 2014.
